

OTTO Product Change Notification

CHANGE NOTIFICATION #: 05102022
ISSUE DATE: May 10, 2022
PRODUCT(S) AFFECTED: HTW and HTWM Series
EXPECTED EFFECTIVE DATE: July 1, 2022

Dear Valued OTTO Customer:

The purpose of this Product Change Notification (PCN) is to inform you of a change to the HTW and HTWM Hall effect thumbwheel switches. Please review this information in detail. Should you have any questions or require any additional information please contact your OTTO Regional Sales Manager or call us at (847) 428-7171 or email us at info@ottoexcellence.com.

Description of Change:

In an effort to improve sensor availability, reduce potential obsolescence risk and improve product performance, the Hall effect sensor used in the HTW/HTWM is being changed. The HTW/HTWM series switches will be changed, as follows:

- PC pin termination option will no longer be available
- The Return-to-End option will no longer be available
- Wire exit locations on the bottom of the switch have been slightly changed
- The appearance of the potting on the bottom of the switch is slightly different

All other specifications are unchanged.

Impact on OTTO Customers:

Electrically and mechanically the HTW/HTWM switches are unchanged. Customers should see no difference between the old and new switches.

Validation Testing Performed:

The new HTW/HTWM switches have been fully tested and passed all validation test requirements.

Effective Date:

The changes will affect all HTW/HTWM switches shipped on or about 7/1/2022 and onward.
